Jan Tyler Applegate • Instructor • Temple University CIS

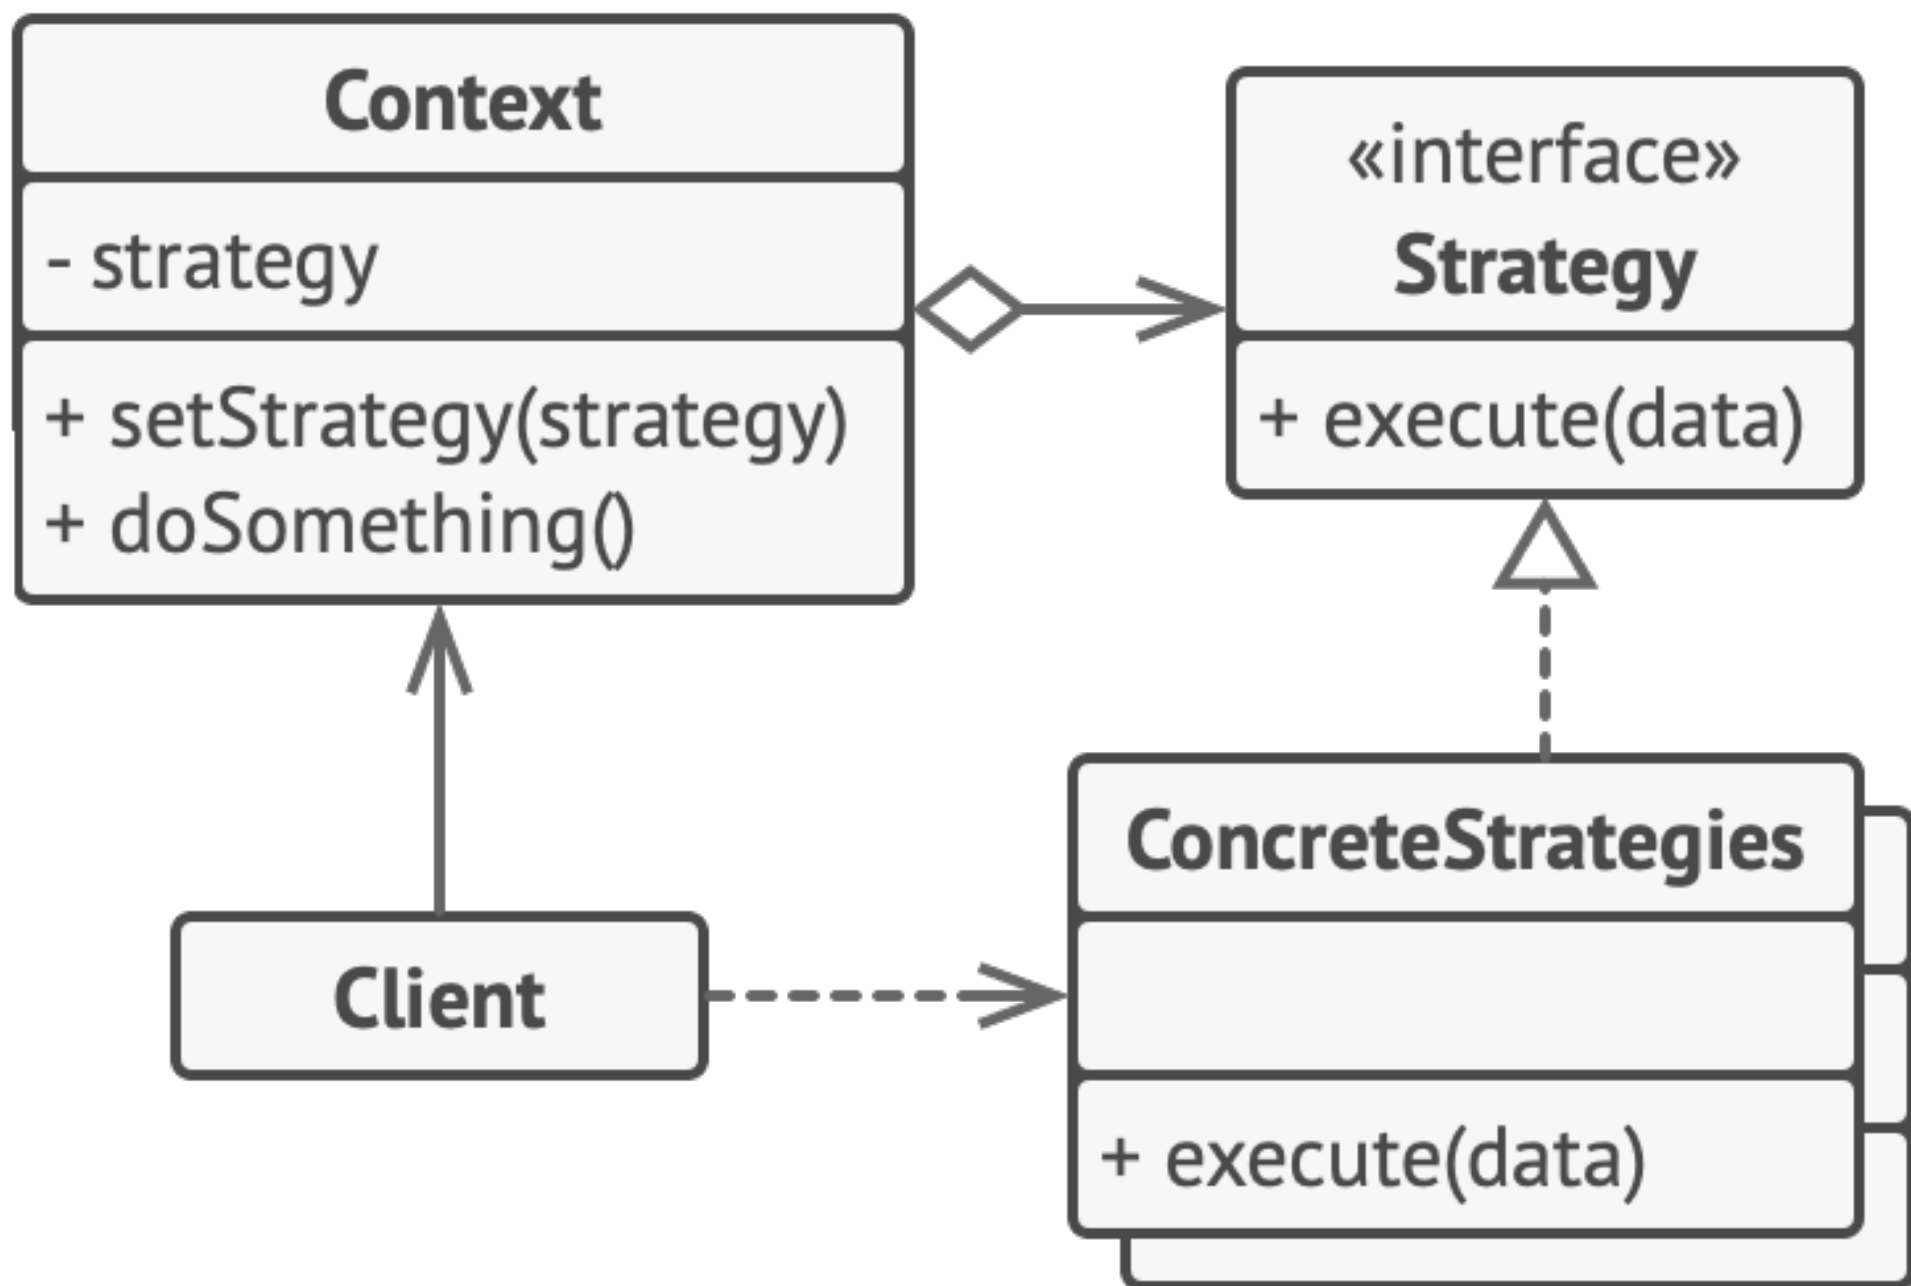

**Client.js**

`strategy.execute()`

**Change happens at runtime!!!  
(Remember Pay station Lab?)**

```
Client.js

str = new SomeStrategy()
context.setStrategy(str)
context.doSomething()

// ... More stuff happens...

other = new OtherStrategy()
context.setStrategy(other)
context.doSomething()
```

Change happens at runtime!!!  
(Remember Pay station Lab?)
